SUMMARY

With expertise in React, React Native, Vue.js, Webflow, Python, and Django, I am confident in my ability to deliver high-quality web and mobile applications that meet your needs. Whether you need a new website built from scratch or an existing one updated with new features, I have the skills and experience to get the job done. I take pride in my ability to work collaboratively with clients to understand their needs and develop solutions that meet their unique requirements. Proven record of successful design and implementation of software solutions to streamline processes and improve productivity. Highly skilled in Java, Python and C++. Adept at troubleshooting and debugging software applications to ensure optimal performance. Hardworking, highly motivated professional eager to lend combined knowledge and skills to enhance business performance.
